

JONES-NOUVELLET
FARM REAL ESTATE

USD\$ 10,750,000

2586 Winchester Rd, Paris, KY 40361

+/- 773 Acres

4 barns for a total of 100 stalls - 3 employee housing - 300+ acres of cropland

Prime location in Bourbon County. +/- 773 acres thoroughbred horse farm in one tract with access on Winchester and Austerlitz roads in Paris, Kentucky. Immediate proximity to Stone Farm, Claiborne, Machmer Hall, and Hidden Brook Farm. Horse amenities include 100 stalls total in four horse barns: one 50 stall yearling barn, two 18 stall broodmare barns (one with added night watchman quarters), and one 14 stall barn. Three employee housing options (one 2023 three bedroom modular home, one updated modular home with garage, and one 1 bedroom house) each with their own entrance to the farm. Large equipment shop, an office, and a 13 bent open equipment shed, two automatic horse walkers and one round pen. Four plank or non-climb wire fencing with top plank throughout the farm with one third of fencing new. Three new large metal run-in sheds (30' x 40") and four new small metal run-in sheds. Automatic waterers. Beautiful large central pond and 2 smaller ponds. Large pastures for farming. Profitably leased for 300+ acres of cropland. Underground utilities. City water.

Farmland Classification—Bourbon and Nicholas Counties, Kentucky
(775 acres, 2586 Winchester Rd, Paris KY)

	Farmland of statewide importance, if drained and either protected from flooding or not frequently flooded during the growing season		Farmland of statewide importance, if irrigated and reclaimed of excess salts and sodium		Farmland of unique importance	The soil surveys that comprise your AOI were mapped at 1:20,000. Please rely on the bar scale on each map sheet for map measurements. Source of Map: Natural Resources Conservation Service Web Soil Survey URL: Coordinate System: Web Mercator (EPSG:3857) Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required. This product is generated from the USDA-NRCS certified data as of the version date(s) listed below. Soil Survey Area: Bourbon and Nicholas Counties, Kentucky Survey Area Data: Version 22, Sep 8, 2025 Soil map units are labeled (as space allows) for map scales 1:50,000 or larger. Date(s) aerial images were photographed: Jun 27, 2019—Sep 22, 2019 The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

Farmland Classification

Map unit symbol	Map unit name	Rating	Acres in AOI	Percent of AOI
CnD	Cynthiana-Faywood complex, very rocky, 6 to 20 percent slopes	Not prime farmland	5.5	0.7%
FwB	Faywood silt loam, 2 to 6 percent slopes	All areas are prime farmland	35.6	4.6%
FwC	Faywood silt loam, 6 to 12 percent slopes	Farmland of statewide importance	216.4	27.8%
FyD	Faywood silty clay loam, 12 to 20 percent slopes	Not prime farmland	7.0	0.9%
La	Lawrence silt loam, 0 to 2 percent slopes, rarely flooded	Prime farmland if drained	11.9	1.5%
Ln	Lindside silt loam, 0 to 2 percent slopes, occasionally flooded	All areas are prime farmland	12.0	1.5%
LwB	Lowell variant-Nicholson complex, 2 to 6 percent slopes	All areas are prime farmland	0.0	0.0%
Ne	Newark silt loam, 0 to 2 percent slopes, frequently flooded	Prime farmland if drained and either protected from flooding or not frequently flooded during the growing season	11.9	1.5%
No	Nolin silt loam, 0 to 2 percent slopes, frequently flooded	Prime farmland if protected from flooding or not frequently flooded during the growing season	5.3	0.7%
uLFC	Lowell-Faywood silt loams, 6 to 12 percent slopes	Farmland of statewide importance	108.8	14.0%
uLsoB	Lowell-Sandview silt loams, 2 to 6 percent slopes	All areas are prime farmland	355.7	45.7%
W	Water	Not prime farmland	8.6	1.1%
Totals for Area of Interest			778.7	100.0%

Description

Farmland classification identifies map units as prime farmland, farmland of statewide importance, farmland of local importance, or unique farmland. It identifies the location and extent of the soils that are best suited to food, feed, fiber, forage, and oilseed crops. NRCS policy and procedures on prime and unique farmlands are published in the "Federal Register," Vol. 43, No. 21, January 31, 1978.

Rating Options

Aggregation Method: No Aggregation Necessary

Tie-break Rule: Lower
